WORK EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Full Stack Web Developer

Remote

July 2022 – Present

Alpha Reservations – This is a full stack Web app that allows the user to reserve a house which will be charged per night. The reservation can be canceled and new houses added to the list.

- Built with: (React, Redux, Ruby on Rails, Tailwind CSS)

The Global UN Refugee Summit 2022 Advert – This is a fully responsive web Summit Advertising page giving the attendees more information; and the speakers with their respective topics.

- Built with: (JavaScript, HTML, and CSS)

Online Auto Attendance –The Online Attendance System with QR Code Integration is designed to streamline the process of marking attendance for learners in educational settings. Leveraging to provide a quick and efficient method for both lecturers and learners to manage attendance records.

- Built with: (Ruby on Rails, CSS, Bootstrap, Postgresql, JWT)

VABRISE TECHNOLOGIES

UI/UX Developer - Internship

Remote

Jun 2024 – Aug 2024

Contributed to the design and development of an online digital marketplace platform. Conducted user research to inform design decisions and implemented a user-friendly interface using figma and successfully launched a platform enabling vendors to sell products locally.

AUDIT & ASSURANCE LIMITED

Front-end Developer

Remote

Jan 2024 – Mar 2024

Developed and maintained a responsive, accessible website for Audit & Assurance Limited, resulting in increased consultation rates and expanded client reach. Employed HTML, CSS, and JavaScript to create a user-friendly platform showcasing company profile, services, and contact information. Ensured website compliance with accessibility standards to cater to a wider audience.

MICROVERSE

Remote

Mentor (Volunteer)

Aug 2022 – Aug 2023

Motivated over 20 junior web developers looking to pursue a successful career in software development, where I help them deliver state-of-the-art software solutions and improve code quality and overall performance on troubleshooting with relevant skills such as Ruby on Rails, Data Structures, React, and Debugging. Tools used include Zoom, slack, and Github. 60% of the mentees maintained longevity in the program due to my mentorship.

EDUCATION

MICROVERSE

July 2022 – July 2023

Remote Full Stack Web Development Program, Full-Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

TAITA TAVETA UNIVERSITY - Voi Kenya

September 2020 - March 2024

BSc. Mathematics and Computer Science.
